

Claim Amendments

SUB F17

22. (Currently Amended) A system for displaying information about an insurance claim for an insured event, the system comprising:

a server component including a task engine application program that interacts with an event processor;

a data component residing on the server component, wherein the data component comprises a claim folder that decomposes a claim related to the insured event into a plurality of levels, wherein the plurality of levels includes a policy level, a claim level, a participant level and a line level, wherein the server component is configured to generate a user interface for displaying at least one of the plurality of levels reflecting information related to a policy, the claim, claimants and an insured person in a structured format; and

wherein the event processor interacts with the data component to identify data events generated that affect data in the claim folder, identify an appropriate system component to handle the an event and transmit the event to the identified system component.

SUB F27

41. (Currently Amended) The system of Claim 22 wherein the ~~policy level comprises~~ server component displays policy level information comprising information related to covered autos for auto claims, information related to covered property for property claims and information related to covered yachts for marine claims.

42. (Currently Amended) The system of Claim 22 wherein the ~~claim level comprises~~ server component displays claim level information comprising details information, facts of loss information, events information and liability information.

43. (Currently Amended) The system of Claim 22 wherein the ~~participant level comprises~~ server component displays participant level information comprising details information and contact information, information related to the insured event, injury information and disability management information.

44. (Currently Amended) The system of Claim 22 wherein the ~~line level comprises~~ server component displays line level information comprising information related to damaged vehicles for vehicle lines, information related to damaged property for property lines and information related to damaged yachts for marine lines, and information related to the insured events, damages and negotiation associated with the vehicles, property and yachts.

62 45. (Currently Amended) The system of Claim 22, wherein the ~~claim level comprises~~ server component displays claim level information comprising details information, facts of loss information, events information and liability information.

46. (Currently Amended) The system of Claim 22 wherein the participant level comprises server component displays participant level information comprising information related to persons involved in the claim, information related to the role of persons in the claim and contact information of the persons.

47. (Currently Amended) The system of Claim 22 wherein the line level comprises a user interface enabling the capture of negotiation component information.

48. (Previously Added) The system of Claim 22 further comprising a client component in communication with the server component wherein the client component is configured to provide information concerning an individual in the insured event and for allowing a user to link the individual to the insured event.

49. (Previously Added) The system of Claim 48 wherein the client component is configured to display the user interface as a response to the communication with the server component.

50. (Previously Added) The system of Claim 49 wherein the client component is configured to allow the user to edit information associated with the plurality of levels.

51. (Previously Added) The system of Claim 49 wherein the data component is configured to allow the user to search for information associated with one of the policy level, the claim level, the participant level and the line level.

52. (Currently Amended) The system of Claim 22 wherein the ~~participant level comprises~~ server component displays participant level information comprising a category of historical information, a claim index and contact information.

62 53. (Currently Amended) The system of Claim 22 wherein the ~~participant level comprises~~ server component displays policy level information comprising information on the claimants that are injured with disabilities.

54. (Currently Amended) The system of Claim 22 wherein the ~~participant level comprises~~ server component displays policy level information comprising specific information on injuries suffered by the claimants.

55. (Currently Amended) The system of Claim 54 further comprising a statistical model for claim practices and risk selection that uses the specific information on injuries suffered by the claimants stored in claims folders and accessible by said server component.

IS THE MODEL
OR THE INFORMATION
IN THE CLAIM FOLDERS

112 56. (Previously Added) The system of Claim 54 wherein the specific information is represented by ICD-9 code.
